Rotationally Moulded Products

A fabricated steel mould is filled with coloured polyethylene powder

The mould is rotated in a specialised oven

The plastic is then removed from the mould and allowed to cool in a controlled environment.

SPILL TRAYS

Our Spill Tray range is the most comprehensive available. They are the ideal solution for catching spills in the work area and the storage and handling of smaller drums and containers.

Spill Trays are compact and lightweight and can fit into small areas. Strong, easy to clean and compatible with most liquids.

With sump capacities up to 145ltr, available in a range of sizes our Spill Tray range provide a practical, simple and safe solution for small liquid storage, handling and spillage needs.

The ST range can be used and purchased with or without grids.

APPLICATIONS

- Container spill tray
- Liquid dispensing work area
- Laboratory tray
- Vehicle and equipment leak spill tray
- Machine part cleaning
- Solvent and ink storage
- Battery storage
- Chemical dosing point tray

Ideal for small liquid storage, handling and spillage needs

SPILL FLOORING

COMPLETE SPILL FLOORING

Our Spill Floor range is the flexible decking solution for creating liquid handling workstations and storage areas to fit your working environment.

Available in 3 sizes each unit can be used as a standalone workstation or combined to create multiple workfloor configurations.

Each individual unit is compliant with current oil storage regulatory requirements -

- BF2 for up to 4 x 100ltr drums
- BF4 and BF4S for up to 4 x 205ltr drums each.

The low height and a choice of two ramps enables easy access for loading and unloading. Optional joint strip covers can be added for a superior finish and optional split floor connectors added to link sumps.

APPLICATIONS

- Modular workfloor area
- Liquid dispensing workstation
- "Quarantine area" for leaking containers
- Drum storage & handling area
- Machine part cleaning area
- Ink storage
- Oil storage
- Lubricant treatment area

PALLET CONVERTERS

TURN A STANDARD PALLET INTO A SPILL PALLET

Place the Palcon over an existing pallet and it is ready to use. The unique compressible front allows drums on a second pallet to be lowered into the Palcon by a forklift truck.

When the forks are withdrawn the front returns to its normal height creating the containment.

FEATURES & APPLICATIONS

- Made from flexible plastomer
- 2 drum and 4 drum versions
- Lightweight and easy to handle
- Broadband chemical compatibility
- Unique compressible front

RACK SPILL TRAYS

Turn standard pallet racking into contained racking by using Rack Spill Trays.

Made from 100% polyethylene, the rack spill tray sits across the beams and the pallet of containers sits inside the tray.

Simple to use and easy to install.

FEATURES & APPLICATIONS

- Stop leaks damaging other products
- Use with existing racking
- Sits on cross beams
- Compliant with most regulations
- Broadband chemical compatibility
- Segregate liquids

POLY ROLL HOLDERS

Worktop dispensing units

The Poly Drum Holders are a flexible and robust range of roll dispensers that accept standard absorbent and paper rolls.

Ideal for environments where spills are likely and a fast clean-up is essential. Suitable for janitorial, engineering and general maintenance applications across all sectors.

The Poly Roll Holder can be placed on a worktop or on top of the Poly Work Cart to create a mobile spill station and maintenance cart.

FEATURES & APPLICATIONS

- Standalone unit or fits on our Poly Work Cart
- Accepts all standard roll sizes
- Lightweight and easy to clean
- Maintain a clean work environment
